PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

(Private Members' Motions other than those directly related to Government Orders or Motions of Non-Confidence will be published on the Notice Paper each Thursday.)

3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
 4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial Election Finances Reform Act, 1975, this House directs the government to bring in legislation applicable to candidates covered by the Municipal Elections Act embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.

4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial Election Finances Reform Act, 1975, this House directs the government to bring in legislation applicable to candidates covered by the Municipal Elections Act embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.

 5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

Mr. Sweeney—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

NOTICES

PRIVATE MEMBERS' MOTIONS TABLED MARCH 19th, 1982

(Private Members' Motions other than those directly related to Government Orders or Motions of Non-Confidence will be published on the Notice Paper each Thursday.)

7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.
 8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the Municipal Act so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
 9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
 10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.
 11. *Mr. Bradley*—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

*Mr. Sweeney—Resolution—*That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

*Mr. Cooke—Resolution—*That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 3

*Mr. Gillies—Resolution—*That this House humbly acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 4

Mr. Bradley—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation. To be debated Thursday, April 15th, 1982.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.

2. *Mr. Cooke*—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added.

3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.

4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial Election Finances Reform Act, 1975, this House directs the government to bring in legislation applicable to candidates covered by the Municipal Elections Act embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
6. *Mr. Sweeney*—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant.
7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.
8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the Municipal Act so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is

required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.

11. *Mr. Bradley*—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation.
 12. *Mr. Gillies*—Resolution—That this House humbly acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

Mr. Sweeney—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 3

Mr. Gillies—Resolution—That this House humbly acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 4

*Mr. Bradley—Resolution—*That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation. *To be debated Thursday, April 15th, 1982.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

Mr. Bradley—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 3

Mr. Gillies—Resolution—That this House humbly acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the

fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 4

Mr. Sweeney—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 15th, 1982.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

Mr. Bradley—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 3

Mr. Gillies—Resolution—That this House humbly acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the

fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 4

Mr. Sweeney—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 15th, 1982.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

Mr. Bradley—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 3

Mr. Gillies—Resolution—That this House acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the

fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 4

Mr. Sweeney—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the Employment Standards Act and the Ontario Business Corporations Act to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 5

Second Reading Bill 45, An Act to protect and enhance the Quality of Drinking Water in Ontario. *Mr. Charlton. To be debated Thursday, April 22nd, 1982.*

Ballot Item No. 6

Mr. Rotenberg—Resolution—That this House urge the Federal Government to rescind provisions under section 14 of the *Canada Post Corporation Act* which prohibit the efficient delivery by businesses and public organizations of their own mail, and, further, that the Federal Government rescind provisions under section 15 of the *Canada Post Corporation Act* which control the prices charged by private delivery services and have the effect of giving the Post Office a monopoly on the delivery of mail in Ontario. *To be debated Thursday, April 22nd, 1982.*

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.

2. *Mr. Cooke*—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added.

3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.

4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.

6. *Mr. Sweeney*—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the *Employment Standards Act* and the Ontario *Business Corporations Act* to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant.

7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.

8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.

9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.

10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is

required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.

11. *Mr. Bradley*—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation.

 13. *Mr. Rotenberg*—Resolution—That this House urge the Federal Government to rescind provisions under section 14 of the *Canada Post Corporation Act* which prohibit the efficient delivery by businesses and public organizations of their own mail, and, further, that the Federal Government rescind provisions under section 15 of the *Canada Post Corporation Act* which control the prices charged by private delivery services and have the effect of giving the Post Office a monopoly on the delivery of mail in Ontario.
 14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence according to an Order of the House passed on
December 18th, 1981)*

Ballot Item No. 1

Mr. Bradley—Resolution—That, in the opinion of this House, the Government should sell the Canadian Challenger 600 business jet aircraft whose purchase was announced on August 11, 1981, in view of the fact that the Premier and cabinet ministers already have suitable and more economic means of travel, that with a \$1.466 billion provincial deficit, funds would have to be borrowed at the rate of at least 15% to cover the cost of the purchase, that the cost of fuel, storage, pilots and maintenance would be far in excess of that for alternative forms of air travel, that this aircraft would be unable to land at many Ontario airports and in view of the fact that the expenditure of \$10.6 million for the purchase and the ancillary expenditures resulting would better be used to assist the people of Ontario who are confronted with the burdens of unemployment, inflation and excessive taxation. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 2

Mr. Cooke—Resolution—That this House acknowledges the need in Ontario for an auto industry independent of foreign domination and that to achieve this goal, this House directs the Government to take the necessary immediate steps to establish an Ontario Automobile Program that would seek to reduce Canada's import dependency on engines and parts, reduce the high levels of foreign ownership and rebuild the auto industry in Ontario. To that end the Government should: (1) establish an interdepartmental office of automotive policy that would co-ordinate the design and implementation of the Ontario Automobile Program; (2) establish a short-term community adjustment fund that would provide assistance to laid-off and terminated workers and would assist currently affected communities to restructure their industrial base; (3) obtain a significant presence in the auto parts sector through the creation of a reorganization of the auto parts industry in order to overcome the fragmentation of the industry, its technological obsolescence and the critical shortage of investment capital. The crown corporation should: (1) obtain, where necessary, equity positions in existing Canadian-owned auto parts companies; (2) require the Canadianization of those foreign multinationals who now operate in Ontario or who establish plants in the future; (3) enter into joint venture projects with major automobile companies; (4) negotiate long-term purchasing agreements for Canadian-made parts with major international automobile companies who sell their products in Ontario; (5) undertake, directly or indirectly, research and development into product development, process technology and whole vehicle technology; (6) explore and develop new industrial linkages between the automobile sector and other sectors of the economy. Further, this House directs the Government to request that the Government of Canada introduce content legislation that would achieve a goal of 100% Canadian Value Added. *To be debated Thursday, April 8th, 1982.*

Ballot Item No. 3

Mr. Gillies—Resolution—That this House acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the

fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 4

Mr. Sweeney—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the *Employment Standards Act* and the *Ontario Business Corporations Act* to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant. *To be debated Thursday, April 15th, 1982.*

Ballot Item No. 5

Second Reading Bill 45, An Act to protect and enhance the Quality of Drinking Water in Ontario. *Mr. Charlton.* *To be debated Thursday, April 22nd, 1982.*

Ballot Item No. 6

Mr. Rotenberg—Resolution—That this House urge the Federal Government to rescind provisions under section 14 of the *Canada Post Corporation Act* which prohibit the efficient delivery by businesses and public organizations of their own mail, and, further, that the Federal Government rescind provisions under section 15 of the *Canada Post Corporation Act* which control the prices charged by private delivery services and have the effect of giving the Post Office a monopoly on the delivery of mail in Ontario. *To be debated Thursday, April 22nd, 1982.*

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
2. *Debated April 8th, 1982.*
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
6. *Mr. Sweeney*—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the *Employment Standards Act* and the Ontario *Business Corporations Act* to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant.

7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.
8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.
11. *Debated April 8th, 1982.*
12. *Mr. Gillies*—Resolution—That this House acknowledges the tremendous contribution of the Boys and Girls Clubs of Ontario to the growth, maturity and development of young people across the province. Moreover, in recognition of the fact that these clubs require significant assistance from their Municipalities, and individual volunteers, to co-ordinate, manage and supervise their programs, this House urges the Minister of Revenue to consider municipal assessment tax exemptions for the registered affiliates of The Boys and Girls Clubs of Ontario.
13. *Mr. Rotenberg*—Resolution—That this House urge the Federal Government to rescind provisions under section 14 of the *Canada Post Corporation Act* which prohibit the efficient delivery by businesses and public organizations of their own mail, and, further, that the Federal Government rescind provisions under section 15 of the *Canada Post Corporation Act* which control the prices charged by private delivery services and have the effect of giving the Post Office a monopoly on the delivery of mail in Ontario.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
2. *Debated April 8th, 1982.*
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
6. *Mr. Sweeney*—Resolution—That in the opinion of this House, and as a result of the heightened vulnerability of workers throughout Ontario, the Government should introduce amendments to the *Employment Standards Act* and the Ontario *Business Corporations Act* to create, in specified cases, an obligation upon an employer considering worker layoffs or plant shutdowns, to consult with the employees prior to the tentative decision to lay off workers or shut down the plant.

7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.
8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.
11. *Debated April 8th, 1982.*
12. *Debated April 15th, 1982.*
13. *Mr. Rotenberg*—Resolution—That this House urge the Federal Government to rescind provisions under section 14 of the *Canada Post Corporation Act* which prohibit the efficient delivery by businesses and public organizations of their own mail, and, further, that the Federal Government rescind provisions under section 15 of the *Canada Post Corporation Act* which control the prices charged by private delivery services and have the effect of giving the Post Office a monopoly on the delivery of mail in Ontario.
14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.
15. *Mr. Riddell*—Resolution—That in the opinion of this House, and as a result of the failure of the Provincial Agricultural Code of Practice to protect farmers carrying on normal farming practices from harassment and restrictions, and as a result of the failure of the Food Land Guidelines to preserve agricultural land, the Government should introduce an Agricultural Development and Protection Act to serve as a Farmers' Bill of Rights, which would:
 - (a) Conserve, protect and encourage the development and improvement of

agricultural land for the production of food and other agricultural products including alternate energy production through the establishment of Agricultural Reserves; (b) Protect farmers from harassment and complaints from no-farm encroachment into farming areas; and (c) Establish an Agricultural Approvals Board to investigate complaints and make recommendations to the Minister of Agriculture and Food.

16. *Mr. Barlow*—Resolution—That this House acknowledges Ontario's need for an expanded, more aggressive "Buy Canadian" program, thereby increasing Ontarians' awareness that buying Canadian-made goods is essential to maintaining and creating employment opportunities in our Province. In addition, Ontario should undertake meaningful discussion with the Federal Government and the provinces to identify and assist Canadian suppliers to capitalize on the material and equipment demands from national mega-projects.
 17. *Mr. Edighoffer*—Resolution—That, this House, in view of: (1) the present extreme economic stress suffered by residents of Ontario; (2) the recommendation with respect to the Ontario Lottery Corporation contained in the Third Report of the Standing Committee on Procedural Affairs; (3) the fact that the Lotteries Branch of the Ministry of Consumer and Commercial Relations was set up to license non-government lotteries and social gaming events; and (4) the Government's efforts to increase private funding for arts, cultural and recreational activities, directs the Government to place a moratorium on the operations of the Ontario Lottery Corporation and to allow the Lotteries Branch of the Ministry of Consumer and Commercial Relations to fulfill its intended mandate.
 18. *Mr. Wildman*—Notice of Reasoned Amendment—That Bill 38, An Act to establish the Ministry of Industry and Trade, be not now read a second time but be referred back to the Minister with instructions to amend the Bill to incorporate the following changes in its objectives, namely: (1) to increase the degree of Canadian ownership of Ontario industry; and (2) to provide for the use of Crown corporations and joint ventures and to develop key sectors of the Ontario economy where imports dominate.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
2. *Debated April 8th, 1982.*
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
6. *Debated April 15th, 1982.*
7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further,

take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.

8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.

13. *Debated April 22nd, 1982.*
14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.
15. *Mr. Riddell*—Resolution—That in the opinion of this House, and as a result of the failure of the Provincial Agricultural Code of Practice to protect farmers carrying on normal farming practices from harassment and restrictions, and as a result of the failure of the Food Land Guidelines to preserve agricultural land, the Government should introduce an Agricultural Development and Protection Act to serve as a Farmers' Bill of Rights, which would: (a) Conserve, protect and encourage the development and improvement of agricultural land for the production of food and other agricultural products including alternate energy production through the establishment of Agricultural Reserves; (b) Protect farmers from harassment and complaints from no-farm encroachment into farming areas; and (c) Establish an Agricultural Approvals Board to investigate complaints and make recommendations to the Minister of Agriculture and Food.
16. *Mr. Barlow*—Resolution—That this House acknowledges Ontario's need for an expanded, more aggressive "Buy Canadian" program, thereby increasing Ontarians' awareness that buying Canadian-made goods is essential to

maintaining and creating employment opportunities in our Province. In addition, Ontario should undertake meaningful discussion with the Federal Government and the provinces to identify and assist Canadian suppliers to capitalize on the material and equipment demands from national mega-projects.

17. *Mr. Edighoffer*—Resolution—That, this House, in view of: (1) the present extreme economic stress suffered by residents of Ontario; (2) the recommendation with respect to the Ontario Lottery Corporation contained in the Third Report of the Standing Committee on Procedural Affairs; (3) the fact that the Lotteries Branch of the Ministry of Consumer and Commercial Relations was set up to license non-government lotteries and social gaming events; and (4) the Government's efforts to increase private funding for arts, cultural and recreational activities, directs the Government to place a moratorium on the operations of the Ontario Lottery Corporation and to allow the Lotteries Branch of the Ministry of Consumer and Commercial Relations to fulfill its intended mandate.
 18. *Mr. Wildman*—Notice of Reasoned Amendment—That Bill 38, An Act to establish the Ministry of Industry and Trade, be not now read a second time but be referred back to the Minister with instructions to amend the Bill to incorporate the following changes in its objectives, namely: (1) to increase the degree of Canadian ownership of Ontario industry; and (2) to provide for the use of Crown corporations and joint ventures and to develop key sectors of the Ontario economy where imports dominate.
 19. *Mr. Stevenson*—Resolution—That in the opinion of this House, and as a result of the increased potential contribution of biotechnology to Ontario's economic and industrial growth, the Government should take the necessary immediate steps to establish an Ontario Biotechnology Advisory Council representative of industry, government and the academic community. The purpose of such a Council would be: (1) to advise the cabinet and the Minister of Industry and Trade on specific policies and programs designed to allow Ontario to take advantage of the opportunities offered by biotechnology; (2) to identify those areas of research and development of biotechnology in which Ontario has a competitive advantage; (3) to encourage, promote and increase public awareness of the benefits of biotechnology; (4) to liaise with industry and universities to ensure appropriate technology transfer; and (5) to undertake appropriate measures to ensure the availability to skilled manpower for the industry.

PRIVATE MEMBERS' MOTIONS

1. *Ms. Bryden*—Resolution—That in the opinion of this House the government should establish an all-party committee to study ways of dealing with violence in the family and in particular the following matters: (1) preventative educational programs; (2) the establishment and funding of transition houses; (3) the adequacy of health, welfare and counselling services available to the victims of family violence; and (4) the need for revised legislation and changes in police and court procedures to protect battered spouses.
2. *Debated April 8th, 1982.*
3. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government should ensure that the following principles are adopted in all rental housing projects which the Ontario Housing Corporation owns or administers: 1. rents shall be geared to net, rather than gross family income, taking into account income tax and other mandatory payroll deductions as well as the cost of basic food and clothing in light of the size of the household; 2. rents shall be adjusted for the duration of any lockout or legal strike to reflect any change in actual net family income, and no recovery of the amounts by which rents are thus reduced shall be made after the labour dispute is settled.
4. *Ms. Bryden*—Resolution—That in view of the necessity of extending to the municipal field the principles of disclosure and limitations on contributions and expenditures contained in the provincial *Election Finances Reform Act, 1975*, this House directs the government to bring in legislation applicable to candidates covered by the *Municipal Elections Act* embodying the general principles of the provincial Act but also including specific limits on all expenditures by a candidate related to an election.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should take action immediately to introduce a Franchise Act based on the recommendations of the 1971 Grange Report. The Act should include provisions for: (1) the formation of a separate branch or division with registrar to administer the Act; (2) full disclosure by franchisor of all details of the scheme including all financial statements; (3) application to all industries and all franchises within each industry; (4) the franchisee to have a four-day cooling off period; (5) prohibition against dealing in franchises except as provided; (6) the administrators of the Act to have the authority to discourage; (a) arbitrary termination; (b) arbitrary refusal of assignments or renewals; (c) arbitrary forfeiture of deposits; (d) forced purchases and secret profits; (e) competitive and discriminatory practices by franchisors.
6. *Debated April 15th, 1982.*
7. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further,

take immediate steps to reduce the assessed value of such houses proportionate to the reduction of their market value due to the UFFI as the Minister is required to do under the Assessment Act.

8. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would license all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
9. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Health should immediately establish a medical task force to examine, analyze, and document the health of those people reporting serious health problems which appear to be caused or triggered by UFFI. The study should include the long-term effects of exposure to UFFI.
10. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925/75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.

13. *Debated April 22nd, 1982.*
14. *Mr. Swart*—Resolution—That, in the opinion of this House, the government should amend the *Retail Sales Tax Act* and regulations to eliminate the practice of repeated taxation of a single item by providing that retail sales tax will not be payable upon the resale of a used item.
15. *Mr. Riddell*—Resolution—That in the opinion of this House, and as a result of the failure of the Provincial Agricultural Code of Practice to protect farmers carrying on normal farming practices from harassment and restrictions, and as a result of the failure of the Food Land Guidelines to preserve agricultural land, the Government should introduce an Agricultural Development and Protection Act to serve as a Farmers' Bill of Rights, which would: (a) Conserve, protect and encourage the development and improvement of agricultural land for the production of food and other agricultural products including alternate energy production through the establishment of Agricultural Reserves; (b) Protect farmers from harassment and complaints from no-farm encroachment into farming areas; and (c) Establish an Agricultural Approvals Board to investigate complaints and make recommendations to the Minister of Agriculture and Food.
16. *Mr. Barlow*—Resolution—That this House acknowledges Ontario's need for an expanded, more aggressive "Buy Canadian" program, thereby increasing Ontarians' awareness that buying Canadian-made goods is essential to

maintaining and creating employment opportunities in our Province. In addition, Ontario should undertake meaningful discussion with the Federal Government and the provinces to identify and assist Canadian suppliers to capitalize on the material and equipment demands from national mega-projects.

17. *Mr. Edighoffer*—Resolution—That, this House, in view of: (1) the present extreme economic stress suffered by residents of Ontario; (2) the recommendation with respect to the Ontario Lottery Corporation contained in the Third Report of the Standing Committee on Procedural Affairs; (3) the fact that the Lotteries Branch of the Ministry of Consumer and Commercial Relations was set up to license non-government lotteries and social gaming events; and (4) the Government's efforts to increase private funding for arts, cultural and recreational activities, directs the Government to place a moratorium on the operations of the Ontario Lottery Corporation and to allow the Lotteries Branch of the Ministry of Consumer and Commercial Relations to fulfill its intended mandate.
18. *Debated May 4th, 1982.*
19. *Mr. Stevenson*—Resolution—That in the opinion of this House, and as a result of the increased potential contribution of biotechnology to Ontario's economic and industrial growth, the Government should take the necessary immediate steps to establish an Ontario Biotechnology Advisory Council representative of industry, government and the academic community. The purpose of such a Council would be: (1) to advise the cabinet and the Minister of Industry and Trade on specific policies and programs designed to allow Ontario to take advantage of the opportunities offered by biotechnology; (2) to identify those areas of research and development of biotechnology in which Ontario has a competitive advantage; (3) to encourage, promote and increase public awareness of the benefits of biotechnology; (4) to liaise with industry and universities to ensure appropriate technology transfer; and (5) to undertake appropriate measures to ensure the availability to skilled manpower for the industry.

PRIVATE MEMBER'S MOTION TABLED ON MAY 6th, 1982

23. *Mr. McKessock*—Resolution—That, in the belief that every child should have the opportunity of learning the Judaeo-Christian beliefs on which this country was founded and recognizing that the religious convictions of those other than Christians are fully protected under the Act and regulations, section 50 of the *Education Act* and regulations pertaining to religious education should be strictly adhered to in the province, particularly recognizing that only 30 percent of Canadians presently attend church regularly so that it is doubly important that students be exposed to Biblical truths and the reasons for our moral standards, and to this end, that subsection 15 of Regulation 28, which allows the Ministry of Education to grant exemptions to Boards, be repealed as it is in conflict with the *Education Act*, section 235, subsection 1 (c) which requires a teacher to inculcate by precept and example respect for religion and the principles of Judaeo-Christian morality.
